

## ***Camtek Quality Policy:***

Camtek is focused on our customers' success and is committed to having the highest level of quality. It is our guiding principle to provide our external and internal customers with a level of quality and service that consistently meets expectations through the following philosophies:

- Continually maintaining and improving the effectiveness of our Quality Management System (QMS).
- Meeting or exceeding customer and organizational requirements - Constant striving for quality products that meet or exceed the customer's and/or organizational requirements and expectations.
- Effectively communicating up and down the "Supply Chain" - Effective communication of quality policy and objectives to customers, suppliers and our employees.
- Hiring the best people - Training those people on our system and focusing those people on executing our processes flawlessly.
- Creating and managing the best processes - These processes are documented and described in a comprehensive Quality Management System (QMS).
- Aligning ourselves with the most competent base of suppliers - The ability of our suppliers to provide us with quality goods and services is critical to our success. We will strive to achieve excellence in our supply chain with a common vision in the areas of quality, continuous improvement and excellence in customer service.
- Camtek adheres to international laws, regulations and standards and manage risks and opportunities throughout its processes.
- Camtek employees must adhere to International Laws/Standards of the Company including:
  - Internal company policies
  - Camtek's Code of Ethics, including Environmental, Health and Safety aspects, as detailed in <http://www.camtek.com/data/upl/ufck/investors/ethicscode.pdf>.
